- ⇒ Results
- ⇒ Comments and Observations

# Introduction

- ⇒ On September 25th, 26th and 27th, 2007, the meeting of the GTEs related to the Capricorn Hub, the MERCOSUR Hub and the Southern Hub was held in Santiago de Chile.
- ⇒ All the G.T.E.s were subject to the same methodology, which had the following objectives:
  1. To review the groups of Projects and their strategic functions.
  2. To review the projects of the Hubs included in the AIC.

# Introduction

- ⇒ 3- To review other projects in course in the IIRSA Portfolio.
- ⇒ 4- To identify other Groups of Projects selected to apply the new planning methodologies.
- ⇒ The meeting started with a speech by the Consultants on the Business Vision of the respective hub, which was later discussed by the delegations that attended the meeting.

## Analyzed Hubs

1. Capricorn Hub
2. MERCOSUR – CHILE Hub
3. Southern Hub

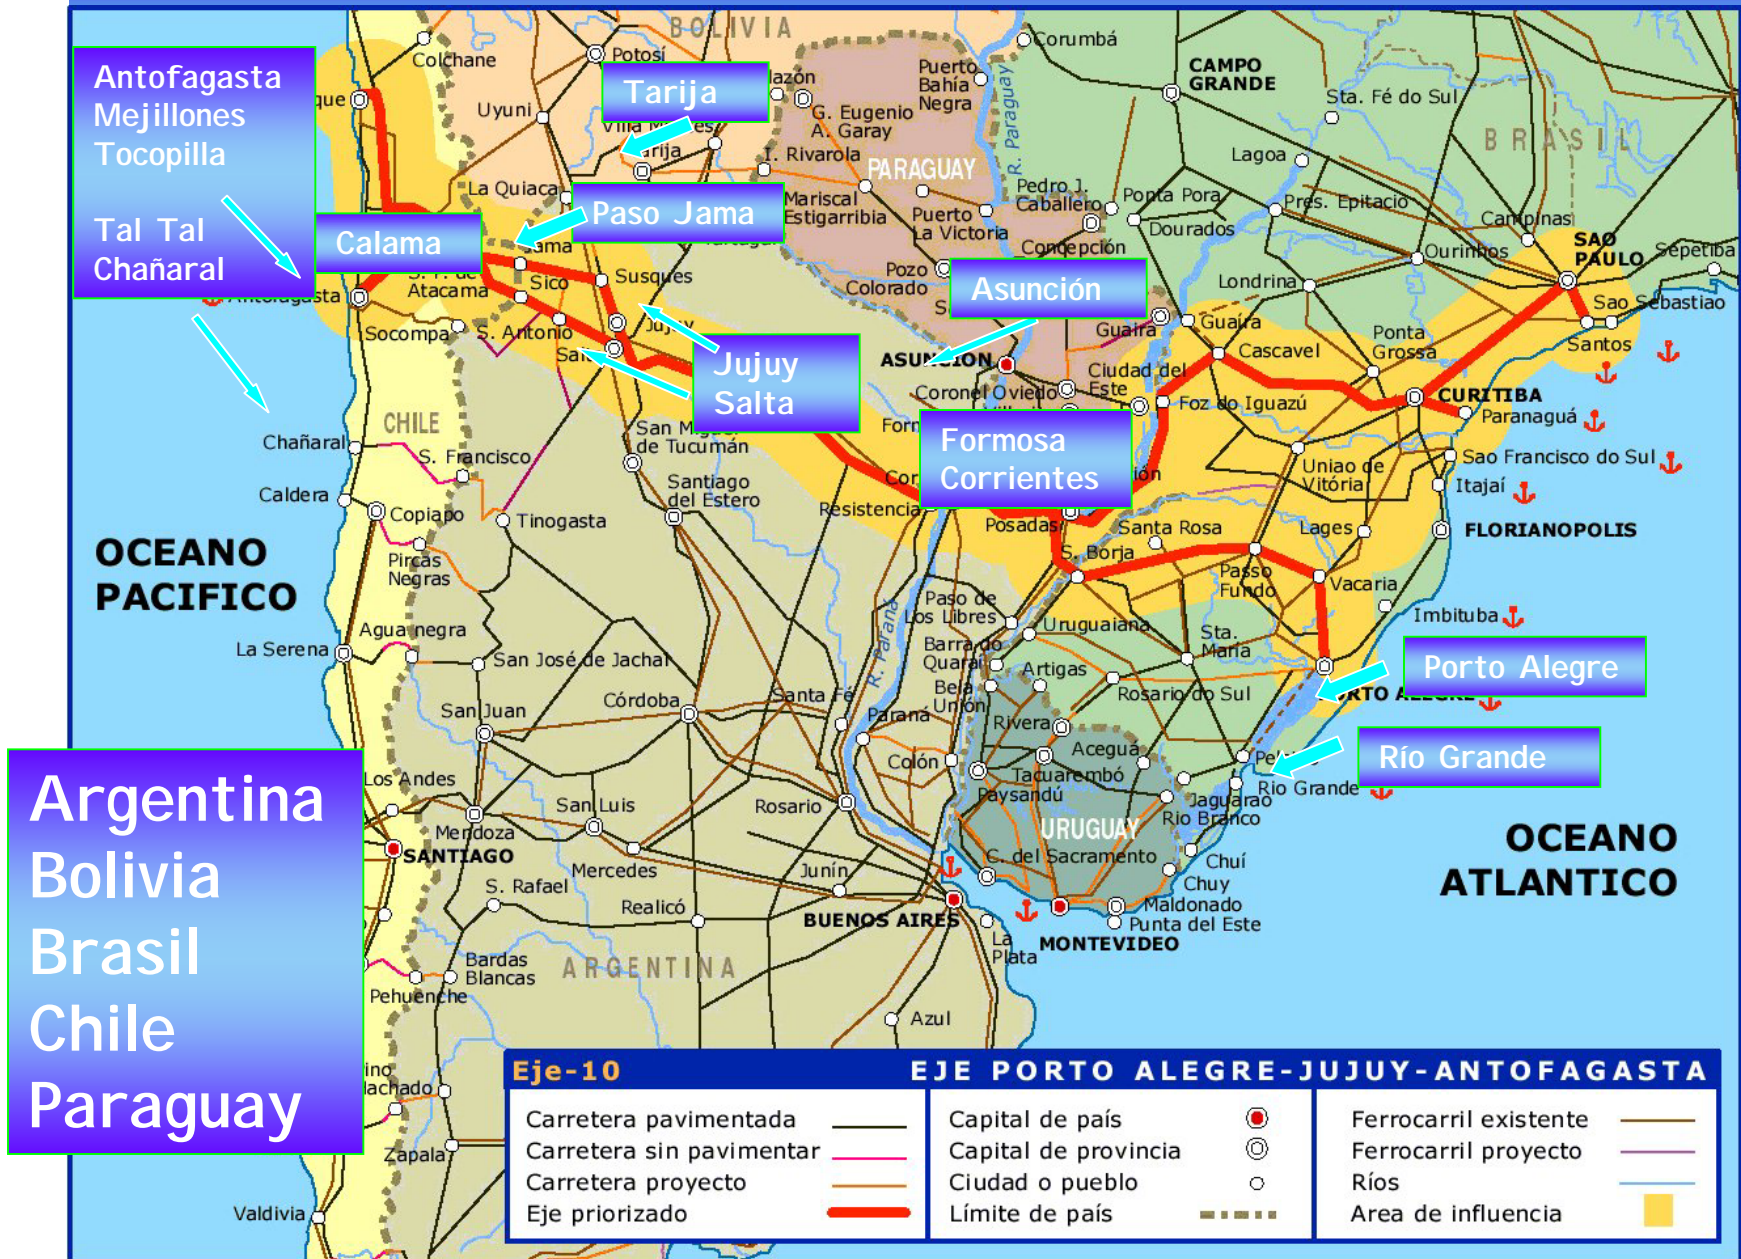

Integration hubs  
that are a priority  
within the IIRSA

## Eje-01

## EJE MERCOSUR - CHILE

Carretera pavimentada		Capital de país		Ferrocarril existente	
Carretera sin pavimentar		Capital de provincia		Ferrocarril proyecto	
Carretera proyecto		Ciudad o pueblo		Ríos	
Eje priorizado		Límite de país		Area de influencia	

## Participation of the Countries

⇒ The meeting had the active participation of the following delegations: Argentina, Brasil, Chile, Paraguay and Uruguay. The delegation from Bolivia apologized for not being able to participate on this occasion.

## Workings of the Meetings

- ⇒ The Chiefs of the involved Delegations and an advisor participated in the meetings. The countries discussed the corresponding matters, always supported by their technical advisory teams.
- ⇒ Finally, the instructions or proposals were accepted and the agreements were signed.

## Results

- ⇒ A better knowledge of the progress of the work in the respective hubs was achieved.
- ⇒ The objective difficulties observed in the development of the works and projects were highlighted.
- ⇒ New projects were proposed and added to the analyzed Hubs.
- ⇒ The existing information was completed and updated.

## Comments and Observations

- ⇒ A debate allowed to better understand the nature of these integration and development Hubs.
- ⇒ There must be some progress in relation to bilateral works and agreements, which allow to better base the proposals delivered to the GTEs.
- ⇒ It is better understood that as integration progresses, the works have more multilateral consequences.
