

PROGRAM 2007

Initiative for the Integration of the Regional
South American Infrastructure

Objectives of the Plan of Action 2007

- To strengthen the implementation and results
- To drive the projects: AIC and other projects under execution
- To apply the results achieved in 2006 in order to benefit the progress of the projects: SIGE and Planning Methodologies
- The GTEs for the Hub: main core for the organization of the activities in 2007

Topics of the GTEs

- 1- To review the projects of the AIC. To identify progress and handicaps of the Agenda. Lessons, (The development of this topic requires support related to the information from the SIGE).
- 2- To review other projects under execution in the IIRSA Portfolio.
- 3- To review Groups of Projects and Strategic Functions. In particular:
 - To consider the topics of the PSI;
 - Planning: analysis on Logistics, Productive Integration and EAE (if it were necessary to study these topics in depth in the Groups and taking the Strategic Function as a base);
 - Revision of the Groups of Projects and the Strategic Function.

Schedule of the GTEs

Grouping of the GTEs of the EID

- 1st Quarter: Inter-oceanic Hub (5) + Peru – Brazil - Bolivia Hub (3) + (Andean Hub A (3) or (4))
